To Whom It May Concern

RE: Amazing Restoration, Inc.
Letter of Recommendation

Dear Madam/Sir:

It is my pleasure to offer this Letter of Recommendation on behalf of Amazing Restoration, Inc. (ARI)

Silva Architects, Ltd. is a diversified architectural, interior design and planning firm. Our work products encompass the design and construction documentation of multi-story buildings, commercial office and medical out-patient clinical tenant suites, retail facilities and land planning services for major commercial real estate developers. The success of our firm designs is reliant upon the contractor entities to whom our clients entrust to interpret and execute our design intent

We have had the privilege of working with ARI for over the past eight years on numerous construction projects ranging from 5,000 RSF to much larger spaces. Both ARI's work ethics and project execution methodology are impeccable. The firm employs highly-skilled tradesmen at all levels of discipline who take a personal interest in the quality of their work and the requirements of completing all projects in a timely manner. ARI has never been delinquent in meeting any of our project completion dates and in many instances has delivered a Certificate of Occupancy to our respective clients ahead of schedule

Further, ARI seems to have a well-founded internal operational system of project management in place. It is not only a system that consistently executes projects within the originally contracted fee amount but, in many instances over the years, has resulted in projects being completed under budget; the latter garnering ARI the accolade of being specified as the "contractor of choice" by the majority of our clients whenever any new, non-bid type projects arise

For whatever new or remodel project scope ARI may be under consideration at this time, we view a relationship with this firm as one of high value and proven reliance regarding performance

If I may offer any additional information regarding ARI's professional attributes, please call me directly at 630) 267-4400, as we manage multiple offices and I am not necessarily in our Elgin office (847) 841-1500 number on a daily basis

Cordially,

SILVA ARCHITECTS, LTD.

James W. Darras
Senior Project Manager
